Company Development History

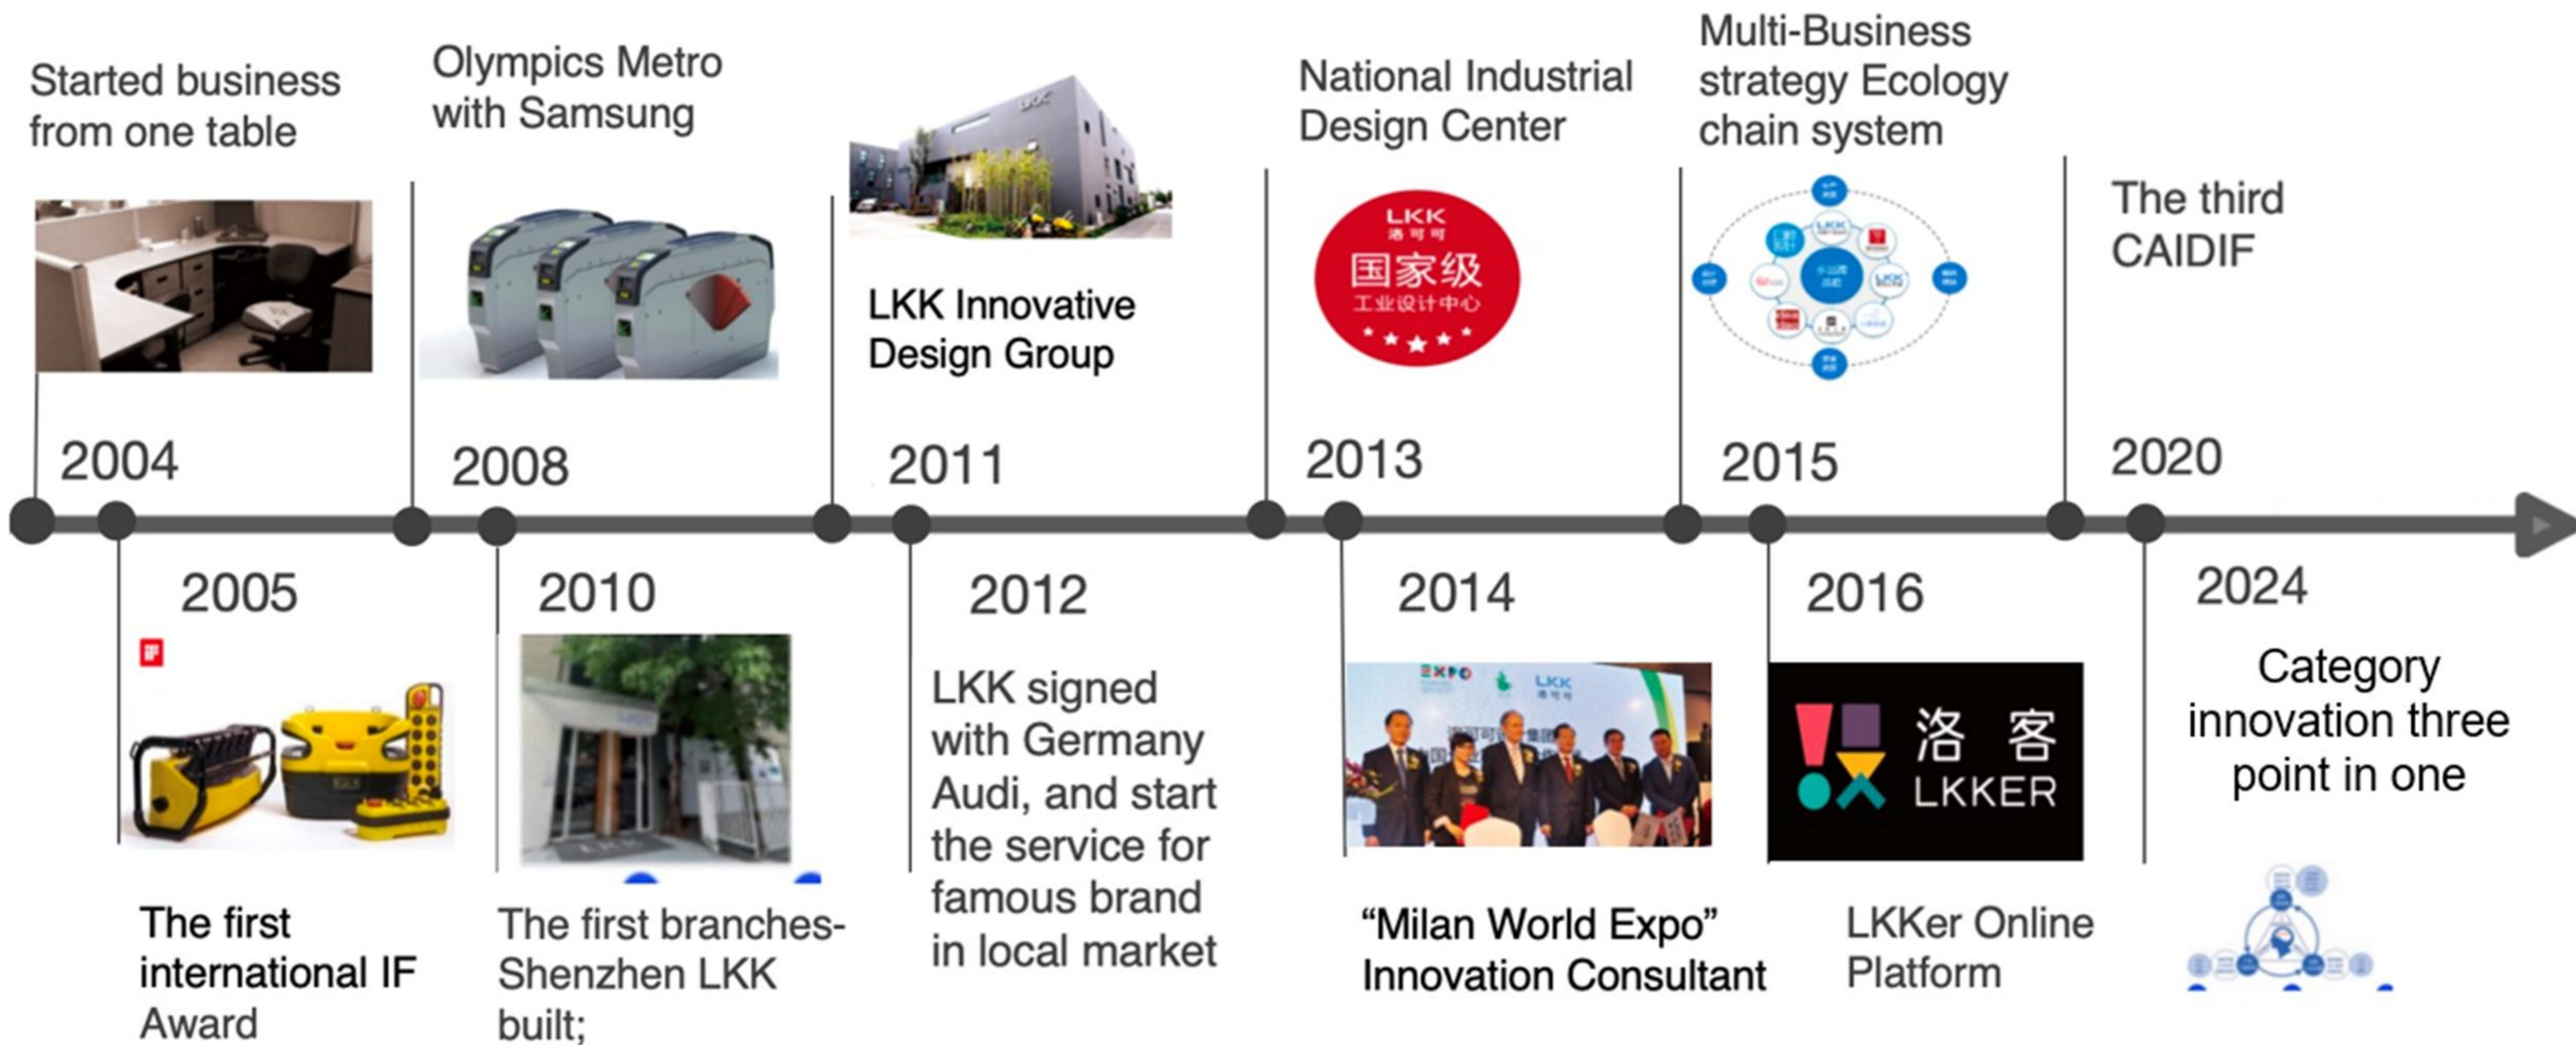

2004 - 2025

21 Years

From Mr.Jia Wei as the sole designer
to a 1,000-members creative group;
Evolving from an industrial design
company into a Consulting & Design
Innovation Group.

Company Development History

Footprint of LKK Group

13+ City Centers

800+ Designers

5,000+ Supply Chain Partners

Global Service Capabilities of LKK Group

- 20+ Design Industries Serviced
- 200+ Product Categories
- 1,000+ Industry Leaders Served
- 10,000+ Products Successfully Launched

Global Awards of LKK Group

592

We are China's most awarded
innovative design group,
recognized with the highest number
of top international design
accolades.

Global Clients of LKK Group

Partnering with Global Industry Leaders to Redefine Excellence.

100+ Fortune Global 500

200+ China's Top 500 Enterprises

Our Service

We provide end-to-end product development services from concept validation to mass production.

Design & Engineering:

Industrial / Mechanical Design | Hardware / Firmware / Software Development

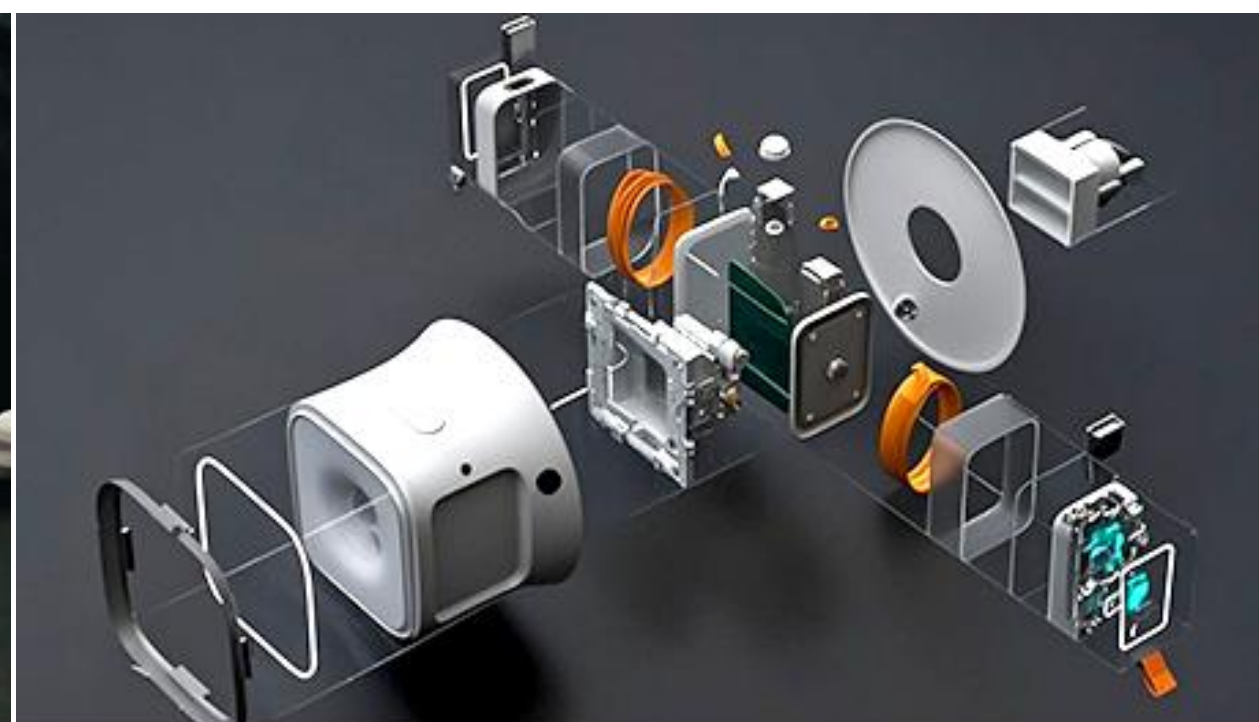

Technical Implementation:

Prototyping | Mold Development | Supply Chain Optimization

Industrial Design

We translate functional needs into intuitive and delightful experiences.

Mechanical Design

We transform concepts into manufacturable & durable products.

Electronics Design

We engineer intelligent electronics from concept to compliance-ready systems.

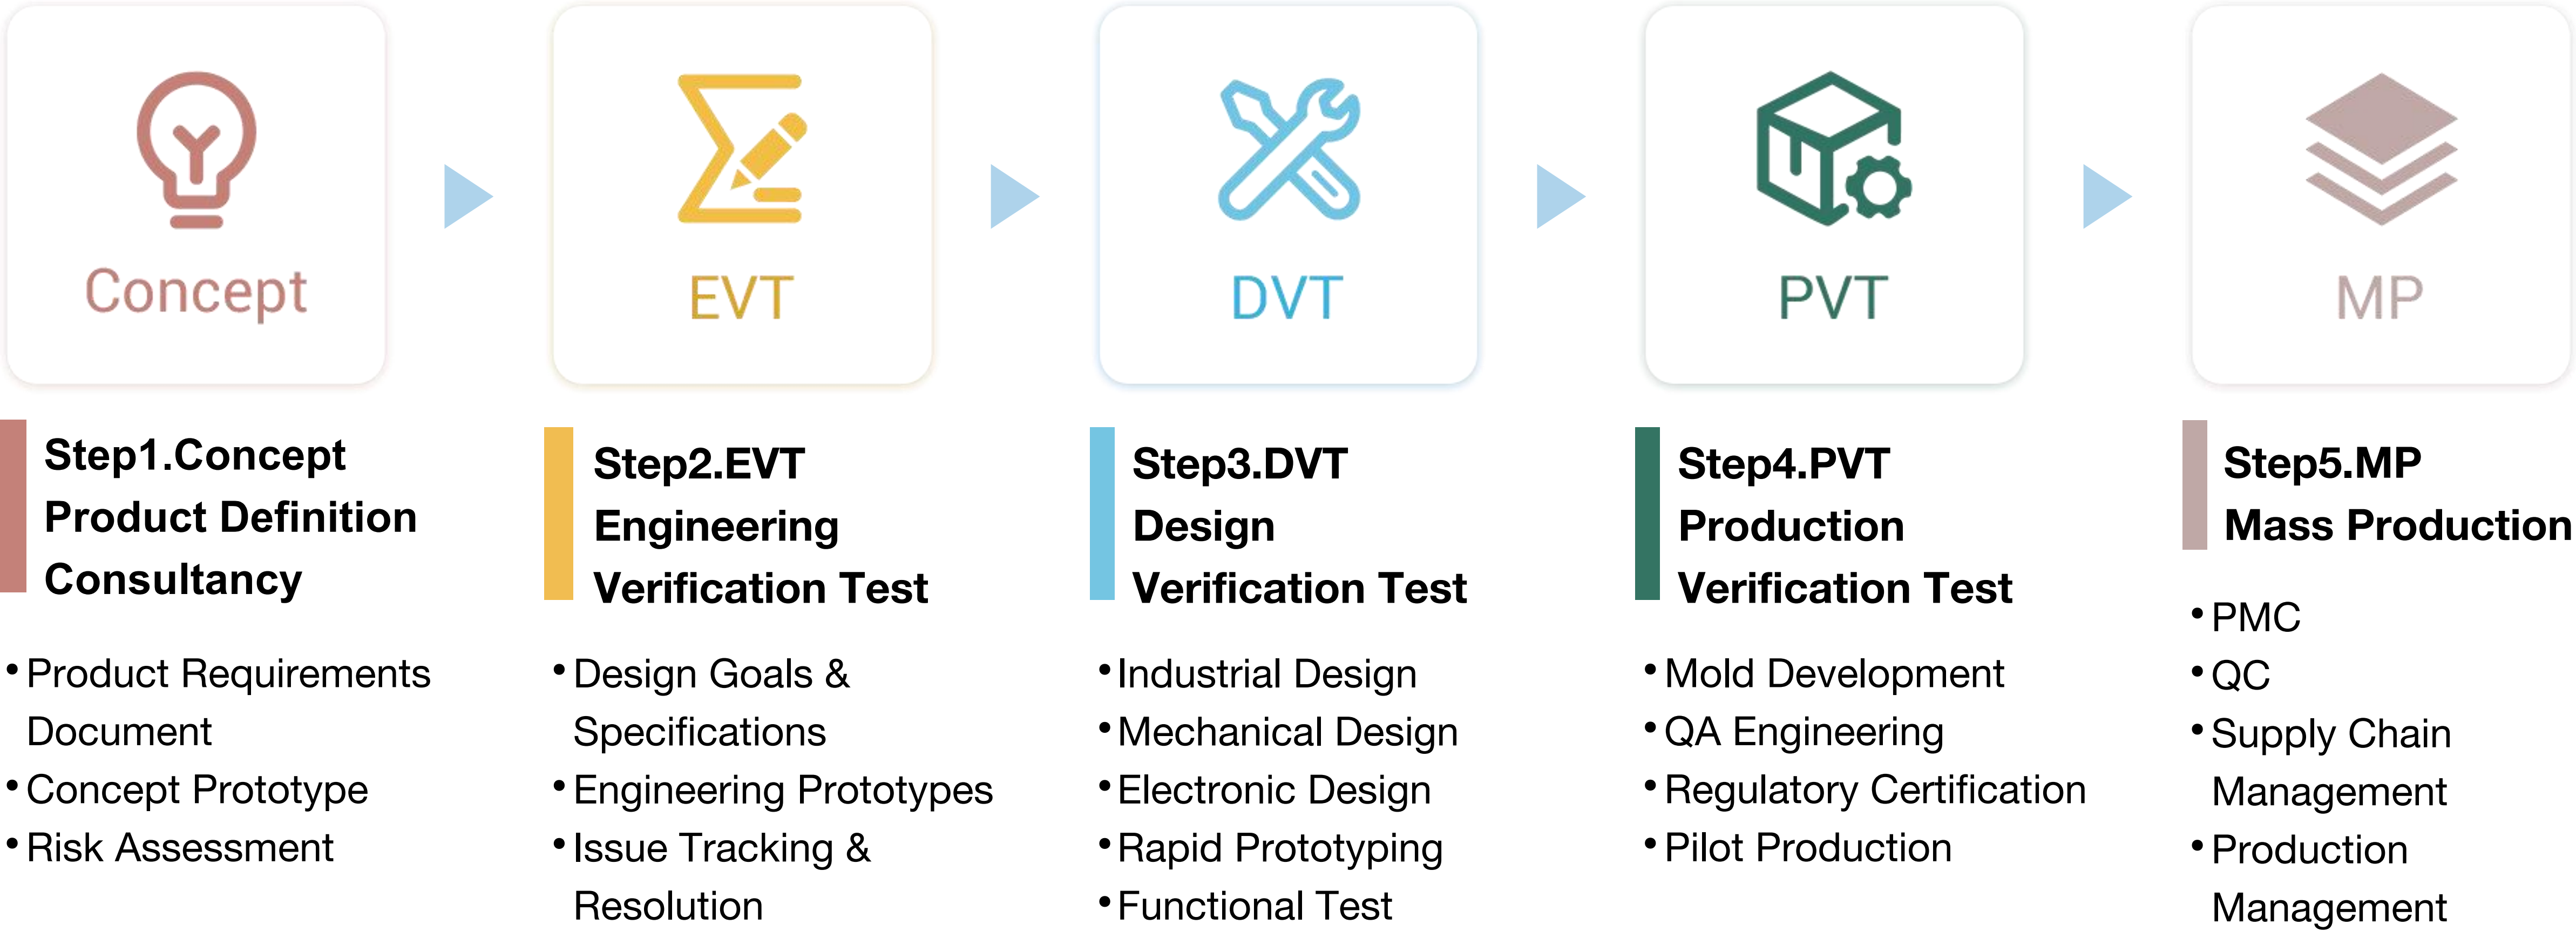

Manufacturing Engineering

We transform prototypes into mass-producible goods.

New Product Development Process

Design for Manufacturing. From Concept to Mass Production.

Electronics Design & IOT Solutions

From concept to function prototyping

Hardware Customization

We determine the hardware architecture based on client requirements, deliver high-quality schematic and PCB design, produce manufacturing files, and prototype hardware (PCBA).

- AI-Driven Hardware
- IoT Device Development
- Single-Board Computer Integration

Firmware Customization

We develop and optimize firmware to ensure hardware compatibility, enhance operational efficiency, and improve device stability and functionality.

Software Application

We develop platform-specific applications (**iOS/Android, embedded systems**) tailored to user needs and real-world scenarios.

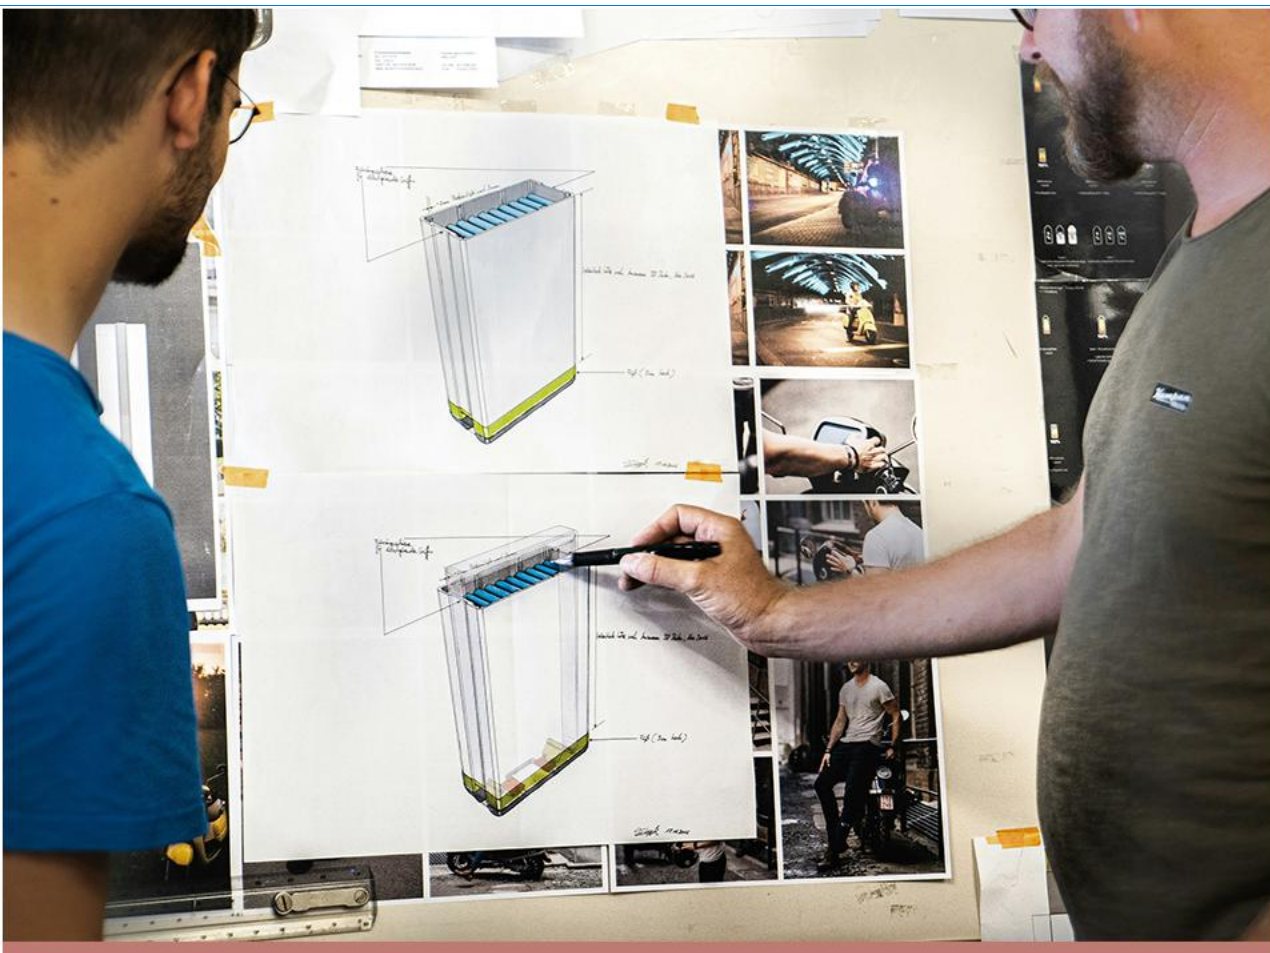

Quality Certification System

Our Advantage

Time Efficiency | Quality Excellence | Cost Leadership | Risk Mitigation

End-to-End Solutions

- Reliable & Cost-Efficient Design
- Rapid Prototyping
- Mass Production Optimization

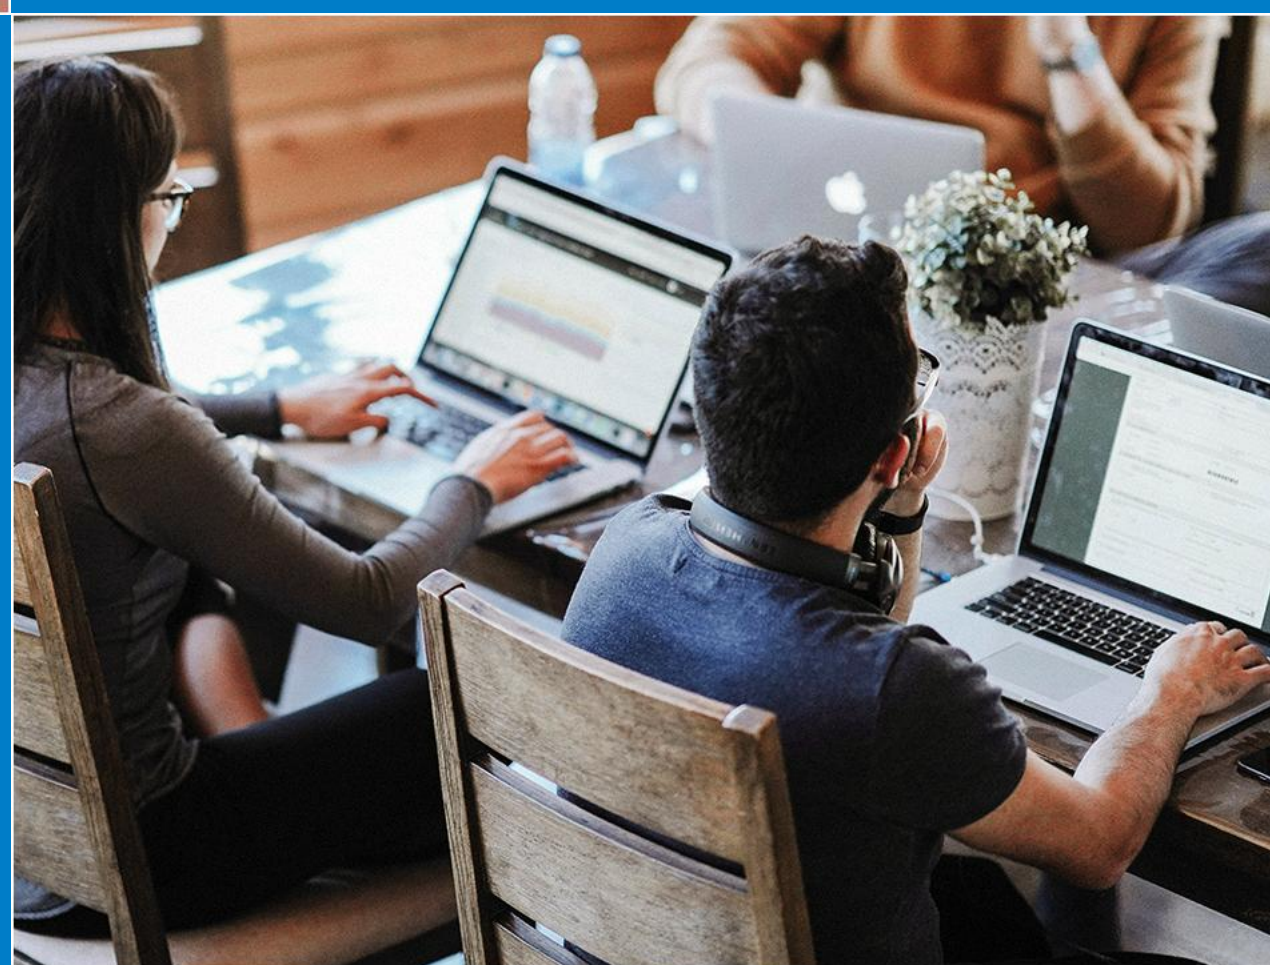

Quality Assurance & Certification Support

- 100+ Expert Engineers
- Defect Rate <500-1000 PPM
- 20% Cost Efficiency
- 95%+ On-Time Delivery

20 Years of Expertise in Product Development

- 20+ Years of Industry Insights
- Strategic Cost Optimization
- Quality-First Procurement

Integrated Resources & Efficient Collaboration

- 5000+ Cross-Industry Suppliers
- Vetted & Ranked Plants
- Precision Supplier Matching
- On-Time Launch Assurance

Global Certification | ISO9001、ISO13485、ISO14000、TS16949 certifications

Our Supply Chain Network

5,000+ Supply Chain Partners.

Guangdong | Zhejiang | Jiangsu | Shandong | Fujian | Hunan | Hubei | Sichuan |

Frequently Asked Questions

Q1: What stages do you cover in product development?

A: Full-cycle solutions: Industrial design → Structural/EE development → Tooling → Mass production. 3000+ products launched across 30+ industries since 2004.

Q2: How is intellectual property protected?

A: NDA + secured development zones with data encryption; critical components sourced from diversified suppliers; 100% client ownership of 200+ patents. Zero IP breaches since 2004.

Q3: How do you control development costs?

A: Modular design + shared supplier networks reduce mass production costs by 25%. Free DFM Cost Optimization Playbook available.

Q4: How do you accelerate time-to-market?

A: Parallel development + in-house pilot lines cut timelines by 30%. Deliver functional prototypes in 6 weeks (with CE/FCC pre-testing).

Q5: What quality systems do you implement?

A: ISO 9001 + APQP (Advanced Product Quality Planning). Built-in DFM/EMC pre-compliance checks ensure >98.5% yield rate.
